

Checking In

Opening this month is The Platinum Hotel and Spa. The 17-story condominium hotel's mission to create a sanctuary for guests is reflected in its decision to be a non-gaming establishment with numerous relaxation-inducing features. Pampering is provided through body treatments and sessions in the Turkish Hammam-styled steam room at its boutique spa, The WELL. Executive Chef Brenton Hammer serves up seasonal selections at The Restaurant with entrees such as "3 Technique Halibut" and micro-plates that allow for menu sampling. Ideal for kicking back after dinner is the pool deck, complete with firepits and cabana beds. When sleep beckons, the hotel's 255 one- and two-bedroom suites await with oversized whirlpool baths, electric fireplaces, and custom-designed furnishings. Once guests are rejuvenated and ready to hit The Strip or head off to the Convention Center, The Platinum lovingly sends them on their way with espresso and a "Beignet Bag" from the lobby café.
